GAZETTE.

Containing the freshest Advi-

ces, Foreign and Domestic.

From MONDAY November 21st, to SATURDAY December 3^d, 1748.

From the GENTLEMAN'S MAGAZINE for September, 1748.

FOREIGN HISTORY.

RUSSIA.

AFTER many contradictory reports, it seems now confirmed, that the Russian troops are to winter in Bohemia, as their marching back to their own country so late in the year, would be the ruin of that corps; and, indeed is contrary to the stipulation with the Empress their mistress. The Russian fleet is returned to their harbour.—The iron-works prosper in Siberia, where they find also mines of almost all kinds of metals, and they talk of establishing a port in one of the rivers that fall into the northern sea, for opening a communication with Archangel, for the benefit of Trade.

ITALY.

The King of *Sardinia*, having renounced, by his accession to the preliminaries, the execution of the treaty of *Worms*, as far as regarded the republic of *Genoa*, and cession of *Final*, has charged his plenipotentiaries at *dix* to demand that such articles of the said treaty as remain in force, and regard the Empress Queen's cession of part of the *Milanese*, be confirmed, and solemnly guaranteed in the definitive treaty of peace. His majesty is intent also on a treaty of another kind, with the dutchess dowager of *Guastalla*, who is to be his wife, tho' her estate makes part of the settlement intended for *Don Philip*.—The suspension of arms is published in *Corsica*, and the republic of *Genoa* is in a state of tranquillity, tho' somewhat uneasy at the withdrawing the monthly subsidy of 250,000 livres paid her by *France*.

The Pope has made a nomination of as many ecclesiastical benefices in favour of the Cardinal of *York*, as will bring him in a revenue of 50,000 crowns.

[And the French King has settled an annual Pension of 500,000 Crowns, on the young Adventurer (the Cardinal's Brother) to which the King of Spain has added 50,000 Pistoles.]

On the 15th Instant died, the Dutchess dowager of *Parma*, mother to the Queen dowager of *Spain*.

FRANCE.

The reform of the troops is begun here; 10 men of each company of the French and Swiss guards are disbanded, as is also a battalion of each of 5 other regiments; the Grassins are reduced from 2500 to 570, and considerable reductions are made in other corps. They say here that the English will not restore *Cape-Brton*, 'till the places in *Flanders* are evacuated, and that this court demands 20 millions for damages done by the English at *Pondicherry*. The marriage of the Prince of *Piedmont* with the third Madame of *France*, will soon be declared, and the Duke d'*Aumont* is preparing to go ambassador to *London*.—The king, intent on procuring peace to the church as well as state, has demanded his Holiness's consent to a national council, for terminating some religious disputes which have long disturbed the *Gallican* church.

LONDON, September 4.

This Day died, at Bath, Dr. Edmund Gibson, Lord Bishop of *London*, aged 79, a Prelate of great Learning and sincere Piety, an able Writer, zealous for the Constitution of the Church of *England*, as appears by his valuable Collection of her Laws in his *Codex juris ecclesiastici Anglicani*, and a most worthy Advocate for the Truth of the Christian Religion in his excellent *Pastoral Letters*. He was 7 Years Bishop of *Lincoln*, and 25 of *London*.

September 10. His Royal Highness the Duke of *Cumberland*

set out for *Harwich* to embark for *Holland*, and sail'd the same Evening.

September 13. His Royal Highness the Duke arriv'd at the Head-Quarters of the Allied Army at *Eyndhoven* in good Health.

September 18. An Order against all Swedes wearing lac'd Cloaths was read at the *Swedish* Chapel.

September 21. Twelve new Pieces of Cannon were order'd for *Landguard-Fort*, by *Harwich*.

September 22. Died Sir *Theodore Tonsen*, Bart. aged above 90, at *Wimbledon* in *Surrey*. He married a Daughter of Sir *Robert Henley*, of the *Grange* in *Hampshire*, by whom he has left Issue, now living, 5 Sons and 3 Daughters, and is succeeded in his Title by his eldest Son *Abraham*. He left *France* several Years before the Persecution of the Protestants, and settling here as a Merchant, improv'd a Fortune of 20,000 *l.* given him by his Father to above 300,000 *l.* which he possess'd 'till the Year 1720; when so far from being in any Secret, that he lost above 50,000 *l.* by that Year's Transactions: Yet, as he was unfortunately a Director of the *South-Sea* Company, the Parliament was pleas'd to take from him above 220,000 *l.* near one half real Estate; by a Law made *ex post facto*, which was given for the Relief of the Proprietors of that Company, though they had gained several Millions by the Scheme, and tho' it appear'd, when his Allowance came to be settled in the House of Commons, that he had done many signal Services to this Nation.

The Distemper among the horned Cattle has broke out afresh about *Burton* upon *Trent*, in *Buckinghamshire*, and also near *Camberwell* in *Surrey*.

After the Reform of the Army, will remain on the Establishment of *England* 20,000 Men, on that of *Scotland* 10,000, and on the *Irish* Establishment 12,000.

The Dutch in the *Greenland* Fishery have taken no less than 248 Whales, those of *Hamburgh* but 14 and half, and those of *Altena*, *Bremen*, &c. 16 and half.

September 27. Last Friday 30,000 Quarters of Wheat was entered for Exportation, for the Service of the French, our good Friends.

We learn from *Astracan*, by the way of *Petersburg*, that vast Quantities of rich Goods and valuable Merchandize are brought thither from *Persia*, from the Apprehensions that the People of that Empire are under, of the Consequences of the Civil War that reigns at present through most of the Provinces. On the other hand, the Russian Officers who command on the Frontiers have received Instructions not to suffer any Passengers to enter her Imperial Majesty's Dominions, that have not clear and authentick Certificates of their being in a perfect State of Health, to stop if possible, the Progress of that malignant Contagion that prevails at present in *Constantinople*, and in many other Places.

We learn from *Madrid*, that it is believed the Conclusion of the Peace will in a great Measure alter the Countenance of Things, by bringing back to Court many of the King's Friends, who being known to have disliked the War, could not be taken Notice of before, without giving Umbrage to the Ministers of *Verfailles*, who from the Suggestions of the Queen Dowager's Party, were extravagantly uneasy and suspicious. Orders have been sent to *America*, to dispense with the usual Regulations, in order to the more speedy embarking the Treasure that is to return by the next Fleet to *Europe*, which is expected before the Close of the Year.

According to some private Letters from *Lyons*, his Royal Highness the Infant *Don Philip* will proceed to, and take Possession of, his Dominions in *Italy*, as soon as they are evacuated by the *Austrians*.

Strians, and will afterwards repair to Pavia, in order to receive and conduct the Princess his Consort to Parma: In short, it is believed that the French Court are not much inclined to receive this Visit, and therefore throw as many Difficulties in the Way of it, as can well be imagined. The same Letters say, that they have lately received there from Spain, the Value of four hundred thousand Pieces of Eight in Gold, which are to be coined into French Money, to discharge the Debts that have been contracted by the Spanish Troops, during their long Stay in Province.

The Swedish Men of War bought by the French sailed from Sweden the 2d of August for Brest, without any Guns on board, but laden with Timber and Naval Stores for refitting Ships of War.

The prodigious Expence of the Land Forces, during this War, has been so deeply felt in France, that all possible Methods are contrived to reform the several Corps in such a Manner, as that the greatest Number of Officers still be retrained, but upon the lowest Terms possible. The Militia are to be mustered twice a Year, in order to have a Body of seventy thousand Men always ready to recruit and augment the regular Troops upon any sudden Occasion, without being obliged to keep them in constant Pay. The Marine is also to be put upon a new Foot, for which it is suggested that perpetual Funds are already assigned. But all these Precautions are so far from pleasing or satisfying the People, that the Value of the Actions of the East India Company decreases daily, notwithstanding the Artifices employed by the Ministers, as well as the Proprietors to keep them up.

By letters from several Parts of the Kingdom we are inform'd, that the Harvest is all got up, and that there is a Prospect of the greatest Plenty, there being more Corn sown the last Year in this Kingdom, than hath been known in the Memory of Man.
